DETAILS

The Deuce Over/Under Launcher System is available in three (3) caliber options:

- 40MM (40x46MM NATO)
- 37MM Sage Rifled/ARWEN 37®
- 37MM Smooth Bore.

The Deuce is perfectly suited for deployment in patrol cars, SWAT units and military peace-keeping missions.

If you or your department is ready to move away from bulky, complicated launchers or if you want to upgrade from a single-shot "gas-gun"; then choose the Sage Deuce as your next less-lethal launcher.

Sleek, simple to operate and most importantly it arrives with Sage's legendary dependability already built in.

KEEPING YOU IN CONTROL
