DETAILS

The HGL1 is a 40MM single-shot, side break-open launcher with a rifled barrel. Having an overall length of 12 inches, the HGL1 is one of the most compact launchers available today.

This launcher comes with an interface system to allow for mounting underneath a variety of assault rifles.

The HGL1 can also be used as a complete stand-alone unit when fitted with a complete butt stock. Optics and sight systems are also available for this model.

Additional rails, stocks, and other accessories are also available for the HGL1.
