

PRODUCT SPECIFICATIONS

*SHOWN WITHOUT SAGE LADDER SIGHTS

MODEL	SL1	
CALIBER	37MM SAGE RIFLED / ARWEN 37®	
ACTION	DOUBLE ACTION TRIGGER. SINGLE SHOT, BREAK OPEN DESIGN.	
SAFETY	CROSS BLOCK TRIGGER SAFETY AND HAMMER LOCK SAFETY. DROP SAFE, EVEN IN "FIRE" POSITION.	
BARREL	10.5" (26.25cm) – FIVE GROOVE RIFLED	
LENGTH	28" (70mm) OVERALL	
WEIGHT	6.5lbs (2.9kg)	
CAPACITY	1 SHOT	
SIGHTS	FRONT SIGHT	FLIP UP SAGE KO1 BATON LADDER WITH 20-100 METER INCREMENTS.
	REAR SIGHT	FLIP UP APERTURE.
ACCESSORIES	ADDITIONAL RAILS, SLINGS, AND OTHER ACCESSORIES ARE AVAILABLE.	
WARRANTY	N/A	

All Specifications are Averages and Subject to Change

DETAILS

The SL1 is capable of delivering accurate blunt trauma inducing batons, combination baton/chemical rounds, non-pyrotechnic barricade penetrating projectiles, as well as pyrotechnic chemical agents.

The SL1 achieves exceptional accuracy by combining a rifled barrel, calibrated sighting, and a family of ammunition manufactured to quality standards which maximizes performance.

The calibrated sighting system consists of a flip up rear aperture and a flip up front ballistic ladder calibrated from 20 to 100 meters in 20 meter increments. The five groove rifling of the SL1 spin stabilizes projectiles which allows for superior accuracy.
