FORMULATION WEIGHT	.75 OZ (21 GRAMS)
CANISTER MATERIAL	SEAMLESS ALUMINUM RATED 2Q
WARRANTY	5 YEARS IF STORED PROPERLY
All Specifications are Averages and Subject to Change	

DETAILS

The SAGE SM6S 3/4oz Chemical Aerosol Projector is a small concealable unit for use by the plain clothes officer or covert operator. It features a built in clip to allow for multiple placement options.

Available in a stream pattern, this MK-6 unit is an excellent option for officers when they expect to encounter individuals or small groups of 1-2 subjects in a typical day.

The integrated plastic flip top safety cover prevents accidental discharge and conveniently moves out of the way for unobstructed access to the actuator when used.

Our formulation of Oleoresin Capsicum (OC) combined with a non-flammable carrier makes it safe to use our aerosol sprays with Electro Muscular Disruption devices.

Labels are waterproof and carry Serial Numbers, Expiration Dates, Stock Numbers, Delivery System and additional necessary information for easy identification.

Custom blends are available upon request to meet your department requirements.
